For the avoidance of doubt, the Buyer shall not be obliged to provide any documents pursuant to this Clause 5, which are not required by the relevant authorities in the EU Member state or non-EU state in question.

5.4. U.S. Domestic Taxes

- 5.4.1.** This Clause 5.4 shall apply only where the point of title transfer, the Loading Port, or Discharge Port is located within the U.S.
- 5.4.2.** Except as provided below, the Seller shall pay all taxes, fees, and other charges that may be levied or assessed or are otherwise applicable upon the possession, manufacture, sale, and transportation of the Oil or Product prior to its delivery to the Buyer; if the Buyer is required by law to pay any such taxes, fees, and other charges, the Seller shall promptly reimburse the Buyer for such items. In addition to any other amounts required to be paid by the Buyer pursuant to the Agreement, the Buyer shall reimburse the Seller for any (1) federal, state or local excise taxes or fees or other charges now in effect or hereafter levied, assessed or imposed on gasoline, gasoline

blend stocks, liquefied petroleum gas, natural gas liquids, additives, diesel fuel, aviation fuel, carbon content, carbon dioxide emissions and special motor fuels and (2) taxes, fees, or other charges which may be hereafter levied, assessed, or imposed on or with respect to the possession, manufacture, removal, sale, transportation, receipt or delivery of the Oil or Product at and after delivery to the Buyer. To the extent, any state law imposes tax on the Seller on such reimbursements, and the Seller pays such tax, then the Buyer shall reimburse the Seller for the amount of such additional tax. The Seller shall have the right to invoice tax and any such additional tax, as described in the preceding sentence, at the same time at the combined effective tax rate then applicable to the Seller. The Buyer shall furnish the Seller with satisfactory tax exemption certificates where exemption is claimed.

- 5.4.3.** When one Party makes payments to be reimbursed by the other Party, the paying Party shall use commercially reasonable efforts to verify the correctness of the charges and to pay only the minimum amount due. All taxes shall include any related interest and penalties. There shall be no reimbursement for penalties or interest, which are incurred as the result of the paying Party's negligence.
- 5.4.4.** Notwithstanding anything to the contrary in the Agreement, each Party is responsible for payment of its federal, state, and local income taxes and state franchise, license, and similar taxes required for the maintenance of business existence, including the Business and Occupation Tax levied by the State of Washington or any political subdivision of the State of Washington.
- 5.4.5.** Each Party is responsible for obtaining the proper licenses in the states where the transactions under the Agreement take place. Should any taxes, fees, and other charges, including penalty or interest, occur because of one Party's failure to obtain such licenses, the Party who fails to obtain the required licenses agrees to bear all the costs associated with this failure and shall indemnify the other Party from the additional costs.
- 5.4.6.** Each Party agrees to indemnify and hold the other Party harmless from and against all claims, causes of action, proceedings, judgments, interest, penalties, fees or other liabilities brought by or awarded to third parties arising out of or connected with taxes to be paid or otherwise required to be borne by such Party pursuant to this Clause. Said indemnity includes the payment of reasonable attorneys' fees and expenses incurred in defense of said claims, proceedings or causes of action.
- 5.4.7.** The Parties agree to cooperate with each other in defending the tax treatment of the transactions entered into pursuant to the Agreement if a Party is audited by or on behalf of a taxing jurisdiction for sales, use, excise, or similar taxes. Such cooperation shall include, but not be limited to

providing the other Party with prompt and timely notice of any such audit if such audit pertains to taxes for which the other Party is required to reimburse the notifying Party pursuant to this Clause 5.4.7, producing existing documentation, generating new reports from existing electronic reporting systems and making employees available at no cost, other than reasonable out-of-pocket expenses, to the other Party. Both Parties further agree, in furtherance of this cooperation agreement, to retain applicable records for a period of not less than the applicable statute of limitations, including any waivers thereof, executed by either Party for any taxes collected by or reimbursed to that Party. For purposes of this Clause 5.4.7, “prompt and timely notice” shall mean providing a Party with notice at such time so as to permit such Party with enough time and a reasonable opportunity to appeal, protest, or litigate the pending or actual assessment of tax in an appropriate venue. If a Party (the “failing Party”) fails to give the other Party (the “reimbursing Party”) prompt and timely notice of any audit pertaining to taxes for which the reimbursing Party is required to indemnify or reimburse the failing Party, then the reimbursing Party shall not be required to indemnify or reimburse the failing Party pursuant to this Clause 5.4.7 for such taxes to the extent such taxes could have been reduced or eliminated had the failing Party provided prompt and timely notice to the reimbursing Party.

PART II FOB

21. General

21.1. Title and risk

21.1.1. Notwithstanding any right of the Seller to retain documents until payment, title and risk shall be vested in the Buyer when the Oil or Product passes the manifold flange connection of the Vessel's delivery hose at the Loading Port. At that point, the Seller's responsibility with respect to the Oil or Product shall cease, and the Buyer shall assume all risk of loss or damage including but not limited to deterioration or evaporation, spills or other risks or damage caused to or by the Oil or Product delivered.

21.1.2. Any loss of or damage to the Oil or Product during loading, or any consequences of Oil pollution, or any environmental damage or contamination of the seawater, if caused by the Vessel or its officers or crew, shall be for the account of the Buyer

21.2. Independent inspection

21.2.1. The Buyer and the Seller will mutually appoint an independent and first class inspection company ("Independent Inspector") to determine at the Loading Port the compliance of the Oil or Product with the quality and quantity provisions in the Special Provisions, with costs to be shared equally between the Parties.

21.2.2. Where the Loading Port is operated by the Seller or the Seller's Affiliates or the Seller's Associated Companies, the Seller shall ensure that the Independent Inspector (and any representative of the Buyer, which the Buyer may appoint) shall have full access to the facilities at the Loading Port necessary to enable him to perform his duties. The report of such Independent Inspector shall include quality and net quantity. The certificates of quality and quantity (or other equivalent document) shall, except in cases of manifest error or fraud, be conclusive and binding for invoicing purposes and the Buyer shall be obliged to make full payment in accordance with Clause 3 but

without prejudice to the rights of either Party to make any claim pursuant to Clause 22.3 and Clause 23.2.

21.2.3. Where:

- (a)** the Loading Port is not operated by the Seller or the Seller's Affiliates or the Seller's Associated Companies and the Loading Port refuses access to any Independent Inspector appointed by the Parties; or
- (b)** The Parties are unable to reach an agreement on the appointment of an Independent Inspector; the report shall be made by the Loading Port's own qualified inspector ("Loading Port Inspector").

21.2.4. Each Party may, at their own expense, have an authorized representative present at the Loading Port to observe loading, testing, sampling and measuring, provided that it is reasonably possible to do so.

22. Quality

22.1. The Oil or Product to be supplied shall be of the quality, description and/or specification as set out in the Special Provisions. Unless otherwise agreed between the Parties in the Special Provisions, the quality of the Oil or Product shall be determined at the Loading Port in accordance with the latest ASTM standards and MPMS or, if for whatever reason those standards are not applicable, according to good standard practice in use at the Loading Port at the time of shipment.

22.2. Unless otherwise agreed, the quality of the Oil or Product shall be stated from a composite sample taken from the shore tanks at the Loading Port, in accordance with good standard practice at the Loading Port at the time of shipment. The sample will be retained in three sets of sealed containers; one set to be retained by the Independent Inspector or Loading Port Inspector, as the case may be; the second set to be retained by the Seller; and the third set being placed on board the receiving Vessel to be submitted to the Buyer. The samples shall be kept for a period of ninety (90) Days.

22.3. Quality claims

22.3.1. Any claim of variation of quality shall be admissible provided that:

- (a)** a fully documented claim is presented to the Seller within forty-five (45) Days after the date on which the loading of the Oil or Product has been completed; and

(b) The claim includes a copy of the analysis report by a first class inspection company on the Loading Port sample placed on board the receiving Vessel showing that the quality of this sample does not comply with the Special Provisions differing by a greater amount than the reproducibility and repeat- ability as per the applicable standards.

22.3.2. In the event that the report of analysis referred to at (b) above is not accepted by the Seller, the sample retained by the Independent Inspector or Loading Port Inspector at the Loading Port shall be referred for a new analysis to a new mutually acceptable inspection company. Each party shall have the right to appoint a representative to witness the new analysis.

22.3.3. The results of the new analysis in clause 22.3.2 shall be conclusive and binding on both parties for all purposes.

22.3.4. If the Buyer fails to comply with the provisions of Clause 22.3.1 and 22.3.2, all claims regarding quality shall be deemed to have been waived by the Buyer and no claim may be brought in respect of quality

23. Quantity

23.1. Unless otherwise agreed, the quantity of the Oil or Product loaded shall be determined by shore measurements taken at the Loading Port and carried out in accordance with good standard practice in use at the Loading Port at the time of shipment.

23.2. Quantity claims

23.2.1. Nothing in Clause 23 shall prejudice the right of either Party to challenge the accuracy of the measurement taken and recorded in the certificate of quantity (or other equivalent document), provided always that the Buyer shall first have paid the invoiced amount. Any claim of deficiency of quantity shall be admissible provided that:

- a.** a fully documented claim is presented to the Seller within forty-five (45) Days after the date on which loading of the Oil or Product has been completed; and
- b.** the claim includes, as a minimum, a copy of the full report issued by a first class inspection company at the Discharge Port and the receiving Vessel's ullage reports at both the Loading Port and Discharge Port.

23.2.2. If the Buyer fails to comply with the provisions of Clause 23.2.1, all claims regarding quantity shall be deemed to have been waived by the Buyer and no claim may be brought in respect of them.

- 23.2.3.** The Seller shall not be liable for any dead freight that the Buyer may have incurred unless such dead freight has arisen due to the inability of the Seller to comply with the minimum contractual quantity agreed between the Parties. In such case, the Seller shall only be liable for dead freight arising from the difference between the minimum contractual quantity and the quantity loaded on board the Vessel and always leaving sufficient space for expansion of cargo. In no case shall the Seller be liable for more dead freight than such incurred by the Buyer.
- 23.2.4.** No claim shall be made or allowed in respect of any shortage of quantity where the difference between the quantity stated in the bill of lading and the quantity discharged at the Discharge Port is 0.5% of the quantity recorded in the bill of lading or less. The Buyer may only claim from the Seller any shortage in excess of 0.5%.

24. Nomination

24.1. Nomination of Vessels

- 24.1.1.** Unless otherwise provided in the Special Provisions, the Buyer shall advise the Seller, during Seller's Office Hours, of the Vessel nomination for full or part cargo, no later than eight (8) Working Days for purchases of Oil and five (5) Working Days for purchases of Product (hereinafter in this Part II, the "Deadline"), prior to the first Day of the agreed Laydays.
- 24.1.2.** In the event the Agreement is entered into after the Deadline but prior to the first Day of the Laydays then the nomination must be received by the Seller as soon as possible.
- 24.1.3.** Notice of nomination shall be given in writing by the Buyer to the Seller and shall include:
- (a)** the name of the Vessel, up-to-date Q88, IMO number, date built, flag, deadweight, cargo tank capacity, length, beam, draught and such other information as may be required by the Loading Port operator from time to time;
 - (b)** the destination(s) of the Vessel; in any case, the final destination(s) will be declared no later than the Deadline;
 - (c)** the grade and quantity of Oil or Product to be loaded; the Buyer will declare the final quantity to be loaded not later than the fourth Day prior to the first Day of the Laydays;
 - (d)** the ETA of the Vessel at the Loading Port;
 - (e)** the Vessel agent at the Loading Port;

- (f) details of any cargo on board if loading a part cargo; if the Buyer fails to declare the nature, quality and quantity of any part cargo on board or if the Vessel arrives at the Loading Port carrying on board different cargoes than those declared, or if the in-transit cargoes are rejected by the Loading Port, the Seller shall have the right to refuse to berth the Vessel or to make it anchor if she has already berthed, with the Buyer being fully responsible for all the costs and consequences arising from any action required under this Clause;
- (g) the demurrage rate for the voyage;
- (h) full written instructions regarding the preparation and disposition of bills of lading and such other customary Loading Port documentation, which may be required. The Buyer shall be liable for all costs resulting from any delays in loading the Oil or Product due to failure by the Buyer to supply such information in a timely manner but at least two working days before the commencement of the Laydays. Any such delays shall not count as used Lay- time or if the Vessel is on demurrage, as demurrage. If the Buyer fails to send such information and documentation before the Deadline, the Seller shall have the right to produce all documentation necessary for the Vessel to leave the Loading Port, not being liable for any possible direct or indirect consequences; and
- (i) any other information as the Seller may reasonably require.

24.1.4. A TBN nomination shall not be considered a valid nomination for the purposes of the Agreement unless the Seller accepts it expressly on each occasion.

24.1.5. Notwithstanding the foregoing, should the Buyer fail to nominate in due time an acceptable Vessel in accordance with this Clause 24.1, the Seller shall have the right, in its sole discretion (a) to refuse to load the Vessel until a proper nomination has been made and/or (b) to cancel the Agreement with immediate effect and, in any event, (c) to claim damages. However, if the Seller accepts to load the Vessel, then the nomination shall be effective subject to the provisions of Clause 25.3, so time for the purposes of Laytime or demurrage shall not commence until such time as the Vessel has actually commenced loading.

24.2. Substitution of Vessels

The Buyer shall have the right, with due notification in writing to the Seller, to substitute, at least two (2) Working Days prior to the first Day of the agreed Laydays, the nominated Vessel with another Vessel of similar class, type, size, capacity and position, complying with the provisions and

warranties under Clause 24.4, provided that the substitute Vessel tenders N.O.R. to load before or within the agreed Laydays and that the Buyer shall provide in the substitute nomination notice the same details as required under Clause 24.1.3.

24.3. Rejection or acceptance of nomination

- 24.3.1.** The Seller shall have one (1) full Working Day after receipt of the Buyer's nomination notice, including substitute nomination notices, to accept or reject the Vessel nominated.
- 24.3.2.** Notwithstanding anything to the contrary express or implied elsewhere in the Agreement, the Seller shall have the right to reject any nomination, including a substitute nomination, made by the Buyer on any reasonable grounds or to refuse to load any Vessel nominated by the Buyer, including a substitute nomination on any grounds which the Seller in its sole discretion considers reasonable. Any Vessel can be rejected at any time by the Seller, notwithstanding any prior acceptance of such Vessel, if all or part of the information provided by the Buyer at the time of nomination is found to be false or inaccurate or it turns out that the Vessel is not in compliance with any Repsol's internal procedures and rules related to the Marine Safety Criteria and Repsol's vetting process and criteria all published on www.vetting.repsol.com as amended from time to time.

24.3.3. Consequences of rejection

- 24.3.3.1.** The Seller shall not incur any liability for refusing to accept a nomination and the Seller's acceptance of any Vessel for loading shall not constitute a continuing acceptance of such Vessel for any subsequent loading.
- 24.3.3.2.** If the Seller rejects the Buyer's Vessel nomination, the Buyer's obligations under the Agreement to nominate a suitable Vessel and to ensure that it tenders N.O.R. at the Loading Port in accordance with Clause 25.1 shall be unaffected.
- 24.3.3.3.** The Buyer shall be liable for any costs or damages incurred by the Seller arising out of any rejection of, delay to or restriction of the Vessel as a result of the Vessel not meeting the operational and safety standards of the Loading Port. In such event, and without prejudice to its or the Seller's rights, the Loading Port Operator may suspend or delay loading or order the removal of an anchored or a Vessel, which is all fast.

24.4. Vessel's warranties

- 24.4.1.** The Buyer hereby declares that it is aware of all limitations of the Loading Port or area and shall not nominate a Vessel exceeding such limitations and that in operational and technical aspects nominated Vessels shall be in full compliance with all applicable laws, regulations and other requirements of the country of the Vessel's registry and countries, port authorities and terminals at which Vessel may be loading or calling. The Buyer shall also ensure that the Vessel is fully capable of loading the maximum cargo under the Agreement at the Loading Port always safely afloat.
- 24.4.2.** The Buyer warrants that the Vessel's owners, throughout the currency of the charter related to the Agreement, will maintain the certificate issued pursuant to the Civil Liability Convention 1969 or the 1992 Protocols to that Convention (or any further amendment thereto), whichever be the case.
- 24.4.3.** The Buyer warrants that during the currency of the charter the Vessel's owners shall maintain adequate cover up to US\$ 1000 million and in accordance with the terms of the Civil Liability Convention 1969 or the 1992 Protocols (or any amendment thereto) and warrants the fully entry of the chartered Vessel in a P&I Club member of the International Group of P&I Clubs. Otherwise the Buyer holds the Seller harmless for any damage or loss arising from that failure.
- 24.4.4.** The Buyer warrants that each Vessel loaded hereunder shall be manned and maintained so as to fully comply with the standards set out in ISGOTT/SIGTTO, shall comply with appropriate IMO recommendations and comply with the OCI- MF guidelines for the control of drugs and alcohol on-board ship (1995), and every further revision or amendment.
- 24.4.5.** If requested by the Seller, the Buyer also agrees that the terms of this Clause 24.4 will be incorporated into any bill of lading issued in respect of the Oil or Product sold under the Agreement.
- 24.4.6.** The Vessel shall have on board at all times valid ISM certificates (original SMC and copy of the DOC) and the Vessel's owners, before and during the voyage, shall comply with the requirements of the ISM Code.
- 24.4.7.** The Buyer shall indemnify the Seller for any claim made by the Seller's Supplier(s) against the Seller in respect of damage to any facilities at the Loading Port caused by the Buyer's Vessel.

24.5. Inert Gas System ("IGS")

- 24.5.1.** Regardless of their tonnage, Vessels calling at marine and river ports operated by Repsol must have an inserting system when operating with volatile Oil or Product with a flashpoint below 60° C (according to ISGOTT). If there is any doubt as to the characteristics of a cargo, or if a non-volatile,

cargo is being handled at a temperature above its flashpoint minus 10°C, it should be treated as volatile petroleum.

- 24.5.2.** The inert gas system must comply with SOLAS, providing at least an average equivalent to 125% of the unloading rate. Vessel loading and unloading operations for flammable or toxic Oil or Product must be conducted with the Vessel's tanks inerted.
- 24.5.3.** If a Vessel arrives with the IGS inoperative, the Vessel will not be berthed until the IGS is operative and the cargo tanks inserted and until that time N.O.R. shall not be effective, and time for Laytime or demurrage shall not start counting until commencement of loading. All inert gas systems and operations shall comply with the regulations related to the prevention and mitigation measures of fire, explosions and toxic leakages published by Repsol and amended from time to time.

24.6. Vessel's Compliance

- 24.6.1.** The Buyer warrants that the Vessel complies with any and all international, European or national laws or regulations applicable to oil tankers. In this respect the Buyer shall contact the Vessel's local agents at the Loading or Discharge Port, as applicable, in order to get updated information on international, European, and national laws and regulations, and to obtain from the relevant authorities any required authorization, which shall be sent to the Seller. All applicable local and port authority regulations, and any other requirements of whatever nature applicable at the Loading Port, shall apply to the Buyer's Vessel.
- 24.6.2.** If the Vessel does not comply with any of the foregoing provisions, the Seller or the Seller's Suppliers may reject the Vessel when nominated or subsequently and refuse to berth or load the Vessel.
- 24.6.3.** The Seller shall not be liable for any loss, damage or delay derived from Vessel's non-compliance with any of the foregoing provisions.

24.7. ETA

- 24.7.1.** The Buyer shall arrange for the Vessel to give to the Seller or the Seller's Suppliers its ETA at the Loading Port by fax or by email at least 72 hours before arrival, again at least 48 hours before arrival and again at least 24 hours prior to arrival, thereafter promptly advising any variation of

more than 2 hours. The Laydays shall be revised only with the Seller's specific written agreement. The acceptance or withholding of such agreement shall be at the absolute discretion of the Seller.

24.7.2. If the Buyer's Vessel fails, for any reason, to give at least 24 hours prior notice of arrival at the Loading Port, the time allowed to the Seller for loading pursuant to Clause 25.2 shall be extended by a period equal to the delay in giving such 24 hours prior notice, but in any case not exceeding an additional 24 hours.

24.7.3. Any delays resulting from any failure to give the required notices shall not count as Laytime nor, if the Vessel is on demurrage, as time on demurrage.

24.8. Shifting

24.8.1. The Seller shall have the right to shift the Vessel from one Berth to another within the Loading Port provided that the Vessel can when fully laden, safely reach and leave and always safely lie afloat at such Berth. Laytime and Shifting costs shall be for Seller's account if such Shifting is for the Seller's purposes, otherwise any other costs, including but not limited to Shifting costs due to bad weather conditions, shall be for Buyer's account.

24.8.2. For the purposes of this Clause 24.8, a Vessel movement within the same Berth will not be considered as Shifting. In case the Vessel movement within the same Berth is due to the Vessel's personnel, equipment and facilities' technical restrictions, the cost shall be for Buyer's account.

24.9. Vacation of Berth

The Buyer's Vessel shall vacate the Berth as soon as loading hoses have been disconnected, provided that the Vessel's departure is not delayed awaiting production of Loading Port documents unless such documents can be delivered to the Vessel at a suitable anchorage or where early departure procedure ("EDP") is applied. If the Vessel fails to vacate the Berth, unless for reasons attributable to the Seller, its supplier or the Loading Port operator, any loss or damage caused to the Seller or its supplier or the Loading Port operator or any third party resulting from such failure, including such as may be incurred by other vessels awaiting their turn to load, shall be for Buyer's account.

24.10. Berth utilization

Notwithstanding Clause 5.5.1.2, if at the Loading Port the Seller's Supplier or any agency (whether or not an Associated Company of the Seller), imposes on the Seller in respect of the Buyer's Vessel, an excess Berth utilization charge in accordance with the Loading Port regulations or a contractually agreed or otherwise established scale for any hours of Berth utilization in excess of the agreed Laytime or a specified period of hours (as such scale may be advised by the Seller to the Buyer from time to time), but does not impose such charge directly on the Buyer's Vessel itself, such charge shall be for Buyer's account. The afore-mentioned shall not apply where such excess Berth utilization is caused by the Loading Port, the Seller or the Seller's Supplier. For the avoidance of doubt, it is agreed that for the purposes of this Clause 24.10 any technical failure or breakdown of the Vessel shall be a cause within the control of the Vessel and the Buyer.

24.11. Lightering, floating storage and ship-to-ship

- 24.11.1.** The Seller shall have the option to deliver the cargo to the Buyer's Vessel from lighters, a floating storage facility or other Vessel by means of ship-to-ship transfer, subject always to the Buyer's prior consent (which shall not be unreasonably withheld).
- 24.11.2.** Should any lightering or ship-to-ship transfer operations be carried out, the operation shall be conducted in accordance with the most recent edition of the Ship to Ship Transfer Guide as published by OCIMF as may be amended from time to time and MARPOL Annex I as amended by Resolution MEPC.186 (59), Chapter8: Prevention of Pollution during Transfer of Oil Cargo between Oil Tankers at Sea, Regulations 40, 41, 42 for the transfer of Crude Oil and Petroleum Products or any amendments thereto.
- 24.11.3.** The provider of any lightering, loading from floating storage or ship-to-ship transfer services must be acceptable to both the Seller and the Buyer.
- 24.11.4.** Any lighter, floating storage unit or Vessel involved in any lightering, loading from floating storage or ship-to-ship transfer operations must be acceptable to both the Seller and the Buyer.
- 24.11.5.** The Seller shall be obliged to notify the place of lightering or loading to a floating storage facility or other Vessel by ship-to-ship transfer to the Vessel when N.O.R. is tendered. The place of lightering or loading so notified shall be deemed the Berth for the purposes of Clause 25 and all references therein to the Berth shall be construed accordingly.

25. Laytime and Demurrage

25.1. Laydays

The nominated Vessel shall arrive at the Loading Port or area, complete formalities and tender N.O.R. and shall be in all respects ready for loading within the agreed Laydays. If the nominated Vessel tenders N.O.R. before the agreed Laydays, the Seller shall not be obliged to load the Vessel until the first Day of the Laydays. If the nominated Vessel tenders N.O.R. after the agreed Laydays, the Seller shall not be obliged to load the Vessel. Should the Seller agree to load the Vessel, it shall be without prejudice to the rights and remedies of the Seller.

25.2. Time allowed

25.2.1. Except, as expressly provided in the Special Provisions, the time allowed to the Seller for loading of a full cargo shall be as per the applicable charter party of the performing Vessel or pro rata for a part cargo. In the absence of such a provision in the applicable charter party or in the absence of a charter party with laytime and demurrage provision:

- a) in the case of Vessel of 15,000 tons summer deadweight or less, 24 running hours for full cargo or pro rata for part cargo; or
- b) in all other cases, 36 running hours for full cargo or pro rata for part cargo; An additional 2 hours shall be allowed for each additional grade loaded.

25.2.2. All days and holidays shall be included unless loading on the day or holiday in question is prohibited by Applicable Law(s) at the Loading Port.

25.3. Running hours

25.3.1. Time allowed for loading shall commence Berth or no Berth, six (6) hours after valid N.O.R. is tendered in writing to the Seller or its representative by the Master of the Vessel or his representative, or when the Vessel is securely moored at the Berth or other loading place, whichever is earlier. The N.O.R. shall only be valid when tendered after the Vessel has arrived at and anchored within the customary anchorage or waiting place at the terminal of the Loading Port

or, if the Vessel proceeds directly to the Berth, when the Vessel arrives and is securely moored at the Berth and, in any case, the Vessel is ready to load in every respect.

- 25.3.2.** In case of lightering, loading from a floating storage or ship-to ship operations, the Seller's Vessel or the floating storage shall be deemed to be the Berth for the purposes of Clause 25 and all the reference therein to Berth shall be construed accordingly. Time shall commence upon the expiration of six (6) hours after the Vessel arrives at the designated lightering area or when the Vessel is all fast alongside, whichever is earlier, and in either case, when the Vessel is ready to load in every respect, whichever is earlier, and time shall end when hoses are disconnected and all ship-to-ship equipment and personnel have been removed from the Vessel.
- 25.3.3.** If N.O.R. is tendered by the Vessel before the agreed Laydays at the Loading Port, time shall commence at 06:00 hours on the first Day of the Laydays or on commencement of loading, whichever is earlier.
- 25.3.4.** If N.O.R is tendered by the Vessel after the last of the agreed Laydays at the Loading Port and the Seller accepts to load the Vessel in its absolute discretion, then, without prejudice to any of the Seller's other rights, time shall commence upon commencement of loading.
- 25.3.5.** Where the Vessel tenders N.O.R. and an inspection or some other act is necessary to determine whether the Vessel is in fact ready in every respect to load, including but not limited to being in compliance with the security requirements, laws or regulations pertaining at the Loading Port, then the N.O.R. shall be deemed valid only when the Vessel has been inspected and accepted to load by the port authorities or the Seller or its agent. For tanks inspection, this clause shall only be valid in cases where the tanks are not ready for loading as determined by the independent inspector as may have been agreed between the Seller and the Buyer.
- 25.3.6.** The time allowed for loading shall cease upon disconnection of the loading hoses.
- 25.3.7.** Any time taken for any of the following purposes shall not be counted as time taken by the Seller to load the Oil or Product or time in respect of which the Seller is liable for demurrage (whether or not the Vessel is on demurrage and provided always that an otherwise valid N.O.R has been tendered):
- a)** inward passage until the Vessel is securely moored at the Berth and its gangway is ashore or any other loading place or passage from the Berth to lightering place if lightering is to take place at anchorage or other loading place (such passage will not be considered to be Shifting under Clause 24.8);

- b)** awaiting daylight, tugs, tide, ice, pilot, free pratique or customs or immigration procedures or local administration requirements or sanitary clearance or any other reason of similar nature beyond the Seller's control;
- c)** time taken due to bad weather and/or sea conditions or port closure before, during or after the Vessel has berthed;
- d)** time taken in handling or preparing to handle ballast, slops, bunkers or other substances, unless this is carried out concurrently with loading or other normal cargo operations;
- e)** time taken for handling, cleaning, inerting and inspecting the Vessel's cargo tanks and ship lines;
- f)** time spent in complying with local laws, regulations and other requirements of loading operations of the port or intervention by local authorities, including but not limited to any prohibition against operating at night;
- g)** Vessel's breakdown or failure to comply with the requirements of the Loading Port with respect to equipment aboard or for any other cause whatsoever attributable to the Vessel or its crew causing restrictions to loading operations (unless such breakdown or failure existed at the time the Vessel purported to tender N.O.R., in which case such N.O.R. shall not be valid);
- h)** time spent due to labour disputes, strikes, go slows, work to rules, lockouts, stoppages or restraints of labour involving the Master, officers or crew of the Vessel or tugboats or pilots or mooring men;
- i)** delays caused by the failure of the Buyer to comply with any of the terms of the Agreement including but not limited to delays caused by the Vessel's master or her representatives' failure to give the appropriate ETA as provided in Clause 24.7;
- j)** restrictions imposed by the owners, charterer or master of the Vessel;
- k)** any other delay attributable to the Vessel, the Buyer or agents of the Buyer;
- l)** Inspection – including all time taken in the drawing and testing of the “first foot” samples, ullaging and sampling and all associated operations.

25.3.8. Notwithstanding the provisions of Clause 7, any delay in loading by reason of or resulting, directly or indirectly, from fire or explosion or strike, picketing, slow-down, work to rule, lock-outs, stoppage or restraint of labour or other industrial action involving shoreside workmen essential to loading, or any failure/break-down of plant and/or machinery at Loading Port, act of God, act of war, riot, civil

commotion, or arrest or restraint of rules or peoples, shall count as one half Laytime or, if the Vessel is on demurrage, at one half of the demurrage rate provided always that the cause of the delay was not within the reasonable control of the Seller.

25.3.9. Part Cargoes loaded at the Loading Port

If the nominated Vessel loads Oil or Product purchased by the Buyer from the Seller in addition to other cargoes at the same Loading Port (a part cargo), the time allowed for loading such part cargo shall not commence until the Vessel is securely moored at the Berth or other loading place at the Seller's loading terminal and is ready to load. However, if the different part cargoes are loaded at the same Berth, the time allowed for loading the Seller's part cargo shall not start counting until loading has actually commenced.

25.4. Demurrage

25.4.1. If the Oil or Product is not loaded within the Laytime allowed, the Seller shall pay demurrage to the Buyer, in the same currency as established for payment in the Agreement, for the time in excess at the appropriate rate per day or pro rata (for part a day), provided always that the Buyer has fully satisfied the nomination requirements, under Clause 24, and the Buyer has not restricted the loading rate. The Seller shall not be liable for any other loss and/or damages, direct or indirect, which the Buyer may incur as a result of the Oil or Product not being loaded within the time allowed in Clause 25.2.

25.4.2. The rate of demurrage shall be as follows:

- (a)** if any, the rate specified in the Special Provisions;
- (b)** if no rate is specified in the Special Provisions, the applicable charter party rate; or
- (c)** in the absence of both, or if in the Seller's sole opinion the applicable charterparty rate is not representative of the market rate and the Parties fail to reach an agreement with respect to the demurrage rate within thirty (30) Days, the market rate for a Vessel of the size and type used for a single voyage charter from the Loading Port to the Discharge Port shall apply. The market rate shall be established by reference to the AFRA published at the beginning of the month in which the Vessel loads, irrespective of the reference period mentioned in the publication. In case of LPG Vessels, the market rate shall be assessed by reference to the Braefoot Bay Assessments.

- 25.4.3.** In the event of any delay of any kind or from any cause whatsoever whether in connection with the scheduling of the Vessel's turn to load (including any changes in such scheduling), provision of a Berth for the Vessel, berthing or loading of the Vessel or otherwise howsoever without limitation, and provided always that the Vessel is eventually loaded, any rights of the Buyer against the Seller, however the same may arise and whether or not arising under the Agreement, shall be limited to any claim for the payment of demurrage as herein specified, excluding any kind of port expenses directly attributable to time spent on such demurrage, and the Buyer shall not be entitled to complain directly or indirectly of any delay except for the purpose of founding a claim to such demurrage.
- 25.4.4.** In cases where the demurrage rate is agreed as per the applicable charterparty in the Special Provisions or as per Clauses 25.4.2(b) and 25.4.2(c) and a nominated Vessel loads less than a full cargo or it loads a part cargo, for the purposes of determining the appropriate rate of demurrage, the applicable rate shall be established by reference to a Vessel which has a summer deadweight equal to the loaded cargo or part cargo plus 5%.
- 25.4.5.** If the delivery hereunder is co-loaded with Oil or Product being delivered to the Buyer by another supplier at the same Berth, the Seller shall only be liable for that proportion of the demurrage equal to the ratio of the volume delivered by the Seller to the total volume loaded onto the Vessel at that Berth.
- 25.4.6.** In no event shall the Seller be liable for payment of demurrage hereunder in excess of the amount that is actually paid by the Buyer to the Vessel owner or disponent owner for net demurrage related to the cargo delivered by the Seller.

25.5. Demurrage claims

- 25.5.1.** Notwithstanding Clause 25.4 above, the Seller shall not be liable for demurrage under the Agreement unless a notice of a demurrage claim has been submitted to the Seller in writing within thirty (30) Days from the date of the bill of lading but in any case such notice shall not be sent earlier than the bill of lading date. The fully documented demurrage claim must be received in writing within ninety (90) Days from the date of the bill of lading.
- 25.5.2.** The fully documented claim shall include:
- (a)** Owner's calculation for Laytime and demurrage for loading at Loading Port;
 - (b)** the applicable charter party and/or fixture recap;

- (c) time log/statement of facts issued and signed by the terminal;
- (d) ETA notices;
- (e) any Letter of Protest (L.O.P.); and
- (f) the N.O.R.;

25.5.3. In order to effect payment of any demurrage, the Buyer must previously deliver proof of payment of the same to the Vessel's owners.

25.5.4. If the Buyer fails to comply with the provisions of Clause 25.5, all claims regarding demurrage shall be deemed to have been waived and any liability of the Seller for demurrage shall be extinguished.

PART III. CFR AND CIF

26. General

26.1. Title and risk

- 26.1.1.** Notwithstanding any right of the Seller to retain documents until payment, title and risk shall be vested in the Buyer when the Oil or Product passes the manifold flange connection of the Vessel's delivery hose at the Loading Port. At that point, the Seller's responsibility with respect to the Oil or Product shall cease, and the Buyer shall assume all risk of loss or damage including but not limited to deterioration or evaporation, spills or other risks or damage caused to or by the Oil or Product delivered.
- 26.1.2.** In the case of delivery as a part cargo lot where the Oil or Product deliverable under the Agreement is not identifiable or ascertainable on board the Seller's Vessel separately from Oil or Product destined for receivers other than the Buyer, the Buyer agrees to be allocated, and accept risk and title, in accordance with Clause 26.1.1, in such percentage of the total quantity of Oil or Product loaded as is represented by the bills of lading issued to the Buyer in relation to the total quantity of Oil or Product recorded in all the bills of lading issued in respect of the voyage in question.
- 26.1.3.** If the Vessel has commenced or completed loading prior to being nominated to the Buyer as per Clause 30, notwithstanding any right of the Seller to retain documents until payment and title of the Oil or Product according to Security Payment Clause 3.5.3, the risk in the Oil or Product delivered shall be deemed to have passed to the Buyer as the Oil or Product passes the manifold flange of the Vessel's delivery hose at the Loading Port and the title of the Oil or Product shall pass immediately upon receipt by the Seller of the Buyer's acceptance of such nomination.

26.2. Independent inspection

- 26.2.1.** The Buyer and the Seller will mutually appoint an Independent Inspector to determine at the Loading Port the compliance of the Oil or Product with the quality and quantity provisions in the Special Provisions, with costs to be shared equally between the Parties.

26.2.2. Where the Loading Port is operated by the Seller or the Seller's Affiliates or the Seller's Associated Companies, the Seller shall ensure that the Independent Inspector (and any representative of the Buyer which the Buyer may appoint) shall have full access to the facilities at the Loading Port necessary to enable him to perform his duties. The report of such Independent Inspector shall include quality and net quantity. The certificates of quality and quantity (or other equivalent document) shall, except in cases of manifest error or fraud, be conclusive and binding for invoicing purposes and the Buyer shall be obliged to make full payment in accordance with Clause 3 but without prejudice to the rights of either Party to make any claim pursuant to Clause 27.3 and Clause 28.2.

26.2.3. Where:

- (a) the Loading Port is not operated by the Seller or the Seller's Affiliates or the Seller's Associated Companies and the Loading Port refuses access to any Independent Inspector appointed by the Parties; or
- (b) the Parties are unable to reach an agreement on the appointment of an Independent Inspector,
- (c) the report shall be made by the Loading Port Inspector.

26.2.4. Each Party may, at their own expense, have an authorized representative present at the Loading Port to observe loading, testing, sampling and measuring, provided that it is reasonably possible to do so.

26.2.5. If an independent inspector has already been appointed by the Seller or any third party in respect of the Oil or Product prior to the appropriation of the cargo by the Seller to the Buyer or if such inspection has already been carried out, then both Parties shall be bound by the certificates of quantity and quality issued by said inspector for invoicing purposes, provided that the certificates of quantity and quality (or such other equivalent documents) of the Oil or Product comprising the cargo are issued in accordance with Clauses 27 and 28 below.

27. Quality

27.1. The Oil or Product to be supplied shall be of the quality, description and/or specification as set out in the Special Provisions. Unless otherwise agreed between the Parties in the Special Provisions, the quality of the Oil or Product shall be determined at the Loading Port in accordance with the

latest ASTM standards and MPMS or, if for whatever reason those standards are not applicable, according to good standard practice in use at the Loading Port at the time of shipment.

27.2. Unless otherwise agreed, the quality of the Oil or Product shall be stated from a composite sample taken from the shore tanks at the Loading Port, in accordance with good standard practice at the Loading Port at the time of shipment. The sample will be retained in three sets of sealed containers; one set to be retained by the Independent Inspector or Loading Port Inspector, as the case may be; the second set to be retained by the Seller; and the third set being placed on board the receiving Vessel to be submitted to the Buyer. The samples shall be kept for a period of ninety (90) Days.

27.3. Quality claims

27.3.1. Any claim of variation of quality shall be admissible provided that:

- (a)** a fully documented claim is presented to the Seller within forty-five (45) Days after the date on which the loading of the Oil or Product has been completed; and
- (b)** the claim includes a copy of the analysis report carried out by a first class inspection company on the Loading Port sample placed on board the receiving Vessel showing that the quality of this sample does not comply with the Special Provisions differing by a greater amount than the reproducibility and repeatability as per the applicable standards.

27.3.2. In the event that the report of analysis referred to at (b) above is not accepted by the Seller, the sample retained by the Independent Inspector or Loading Port Inspector at Loading Port shall be referred for a new analysis to a new mutually acceptable inspection company. Each party has the right to appoint a representative to witness the new analysis.

27.3.3. The results of the new analysis in Clause 27.3.2 shall be conclusive and binding on both parties for all purposes.

27.3.4. If the Buyer fails to comply with the provisions of Clause 27.3.1 and 27.3.2, all claims regarding quality shall be deemed to have been waived by the Buyer and no claim may be brought in respect of quality.

27.3.5. In case of a quality discrepancy, the Buyer will proceed with a formal claim according to this Clause 27.3, but no claim exempts the Buyer from its obligation to discharge the Oil or Product.

28. Quantity

28.1. Unless otherwise agreed, the quantity of the Oil or Product loaded shall be determined by shore measurements taken at the Loading Port and carried out in accordance with good standard practice in use at the Loading Port at the time of shipment.

28.2. Quantity claims

28.2.1. Nothing in Clause 28 shall prejudice the right of either Party to challenge the accuracy of the measurement taken and recorded in the certificate of quantity (or other equivalent document), provided always that the Buyer shall first have paid the invoiced amount. Any claim of deficiency of quantity shall be admissible provided that:

- (a)** a fully documented claim is presented to the Seller within forty-five (45) Days after the date on which loading of the Oil or Product has been completed; and
- (b)** the claim includes, as a minimum, a copy of the full report issued by an inspection company at the Discharge Port and the receiving Vessel's ullage reports at both the Loading Port and Discharge Port.

28.2.2. If the Buyer fails to comply with the provisions of Clause 28.2.1, all claims regarding quantity shall be deemed to have been waived by the Buyer and no claim may be brought in respect of them.

28.2.3. No claim shall be made or allowed in respect of any shortage of quantity where the difference between the quantity stated in the bill of lading and the quantities discharged at the Discharge Port is 0.5% of the quantity recorded in the bill of lading or less. The Buyer may only claim from the Seller any shortage in excess of 0.5%.

28.2.4. Where delivery is made as an unsegregated part cargo lot to the Buyer and a third party, the quantity determined in accordance with the foregoing shall be adjusted so that, following completion of discharge of the relevant part cargo lots, the Buyer and such third party shall each be allocated a percentage of the total loaded quantity equal to that percentage of the total outturn quantity (determined at each Discharge Port) which was discharged at its Discharge Port.

29. Insurance

29.1. CFR deliveries

The Seller shall not be responsible for securing insurance whether against marine or other risks.

29.2. CIF deliveries

The Seller shall procure and pay for insurance against ordinary marine risks (excluding insurance against war, strikes, riots, civil commotions, blocking and trapping) to the full value of the Oil or Product under the Agreement plus 10%. Such insurance shall cover the time from when the Oil or Product passes the manifold flange connection of the Vessel's delivery hose at the Loading Port to the time it passes the permanent connection of the Vessel's delivery hose at Discharge Port and shall be in accordance with the provisions of the Institute Cargo Claims (A) or ILU Bulk Oil Clauses (at the Seller's option). The benefit of the insurance shall pass to the Buyer upon the passing of risk in the Oil or Product to the Buyer as described in Clause 26.1.

29.3. War Clause

29.3.1. The Seller reserves the right to refuse at any time:

- (a)** to direct any Vessel, to undertake or to complete the voyage to the Discharge Port if such Vessel is required in the performance of the Agreement:
 - a. to transit or to proceed to or to remain in waters so that the Vessel concerned would be involved in a breach of any institute warranties (if applicable) or, in the Seller's opinion, to risk its safety; or
 - b. to transit or to proceed or to remain in waters where there is war (de facto or de jure) or the threat thereof; or
- (b)** prior to the commencement of loading, to direct any Vessel to undertake the voyage to the intended Discharge Port if such Vessel is required in the performance of the terms of the Agreement to transit waters which, in the Seller's reasonably held opinion, would involve abnormal delay; or
- (c)** to undertake any activity in furtherance of the voyage which in the opinion of the Vessel's Master could place the Vessel, its cargo or crew at risk.

29.3.2. If the Seller agrees to direct a Vessel to undertake or to complete a voyage as referred to in Clause 29.3.1 above, the Buyer undertakes to reimburse the Seller, in addition to other amounts payable under the Agreement, for costs incurred by the Seller in respect of any additional insurance premia including, but not limited to:

- (a)** any and all costs in respect of war risk insurance for the Vessel's hull and machinery in respect of the voyages to any of the ports of discharge or any seas through which the Vessel has to travel in the performance of the Agreement, including any additional insurance or war risk insurance premia in excess of those prevailing at the date of the Agreement, as well as crew war bonuses or any other bonuses relating to the shipment; and
- (b)** any other sums that the Seller may be required to pay to the Vessel's owner including but not limited to any sums in respect of any amounts deductible under such owner's insurance and any other costs and/or expenses incurred by the Seller.

29.3.3. The Seller will advise the Buyer in a timely manner of the best estimation of any additional insurance costs as described in Clause 29.3.2 above and the Seller will confirm final costs by invoice.

29.3.4. Payment of extra costs assumed by the Buyer under clause 29.3.2 will be subject to the presentation by the Seller of supporting documents from the Vessel's owner together with any invoices.

30. Nomination

30.1. Nomination of Vessels

30.1.1. Unless otherwise provided in the Special Provisions, the Seller shall advise the Buyer, during the Seller's Office Hours, of the Vessel nomination for full or part cargo, no later than five (5) Working Days for purchases of Oil and three (3) Working Days for purchases of Product (hereinafter in this Part III, "the Deadline"), prior to the first Day of the loading Laydays or, in absence of loading Laydays, prior to the Vessel's commencement of loading.

30.1.2. In the event the Agreement is entered into after the Deadline but prior to the first Day of the Laydays then the nomination must be received by the Buyer as soon as possible.

30.1.3. Notice of nomination shall be given in writing by the Seller to the Buyer and shall include:

- (a) the name of the Vessel, up-to-date Q88, IMO number, date built, flag, deadweight, cargo tank capacity, length, beam, draught;
- (b) the grade and approximate quantity of Oil or Product to be loaded;
- (c) the ETA of the Vessel at the Loading Port;
- (d) the last three cargoes of the Vessel on its three previous voyages;
- (e) details of any other cargo on board if delivery is a part cargo at Discharge Port; (f) the Laydays at the Loading Port or bill of lading date where the Vessel is already loaded at the time such notice has been advised by the Seller and ETA
- (f) at Discharge Port; and
- (g) the demurrage rate for the voyage.

30.2. Substitution of Vessels

The Seller shall have the right, with due notification in writing to the Buyer, to substitute, prior to the first Day of the agreed Laydays, the nominated Vessel with another Vessel of similar class, type, size, and capacity and position, complying with the provisions and warranties under Clause 30.4, provided that the substitute Vessel tenders N.O.R. to load or discharge before or within the agreed Laydays and that the Seller shall provide in the substitution nomination notice the same details as required under in Clause 30.1.3.

30.3. Rejection or acceptance of nomination

30.3.1. The Buyer shall have one (1) full Working Day after receipt of the Seller's nomination notice, including substitute nomination notices, to accept or reject the Vessel nominated. The Buyer's acceptance shall not be unreasonably withheld. Buyer shall not be entitled to reject the nomination of a Vessel on any grounds which are not related to the Vessel herself.

30.3.2. Consequences of rejection of nomination

In the event of a rejection of the nomination by the Buyer, the Seller shall nominate a substitute Vessel. The Seller's obligations under the Agreement to nominate a suitable Vessel and to ensure that it tenders N.O.R. within the agreed lay- days shall be unaffected.

30.4. Vessel's warranties

- 30.4.1.** The Seller hereby declares that the nominated Vessel shall be in full compliance with all applicable laws, regulations and other requirements of the country of the Vessel's registry and countries, port authorities and terminals at which the Vessel may be discharging.

30.5. Vessel's compliance

- 30.5.1.** The Seller warrants that the Vessel complies with any and all international, European or national laws or regulations applicable to oil tankers. In this respect the Seller shall contact with the Vessel's local agents at the Loading or Discharge Port, as applicable, in order to get updated information on international, Europe- an, and national laws and regulations, and to obtain from the relevant authorities any required authorization, which shall be sent to the Buyer. All applicable local and port authority regulations, and any other requirements of whatever nature applicable at the Loading and Discharge Ports, shall apply to the Seller's Vessel.

30.5.2. If the Vessel does not comply with any of the foregoing provisions, the Buyer may reject the Vessel when nominated or subsequently and refuse to berth or discharge the Vessel.

30.6. Nomination of Discharge Port

30.6.1. Within two (2) Working Days before the first Day of the loading Laydays or commencement of loading, the Buyer shall nominate to the Seller the Discharge Port which shall be within the range of destinations in the applicable charter party. The Buyer warrants that the Discharge Port will accommodate all the physical characteristics of the nominated Vessel including, but without limitation, the length, beam and draught of the nominated Vessel.

The Seller shall have the right to issue its own instructions if such instructions are not so provided by the Buyer in a timely manner.

30.6.3. All costs (including demurrage) arising out of any failure by the Buyer to comply with the provisions in this Clause 30.6 shall be for Buyer's account.

30.6.4. Alternative Discharge Port

30.6.4.1. The Buyer may request another Discharge Port as per the options, terms and conditions of the applicable charter party.

30.6.4.2. Whenever the Buyer exercises such option, the price stated in the Special Provisions shall be adjusted by the freight differential calculated in accordance with the terms of the applicable charter party or as otherwise agreed between the Parties. The Buyer shall be liable for any additional costs incurred by Seller, including, but not limited to, any deviation costs and costs in respect of any additional bunker consumption. In exercising its Discharge Port options, the Buyer must take account of the dimensions and characteristics of the Vessel nominated by the Seller.

The Seller shall arrange for the Vessel to give to the Buyer or its representatives the ETA at the Discharge Port by fax or by email at least 72 hours before arrival, again at least 48 hours before arrival and again at least 24 hours prior to arrival, thereafter promptly advising of any variation of more than 3 hours, if possible and practicable.

30.8. Shifting

30.8.1. The Buyer shall have the right to shift the Vessel from one Berth to another within the Discharge Port provided that the Vessel can when fully laden, safely reach and leave and always safely lie afloat at such Berth. All costs, including but not limited to damages for delay, shall be for Seller's account if such Shifting is due to reasons within the control of the Seller and/or the Vessel and shall otherwise be for Buyer's account.

30.8.2. For the purposes of this Clause 30.8, a Vessel movement within the same Berth will not be considered as Shifting. In case the Vessel movement within the same Berth is due to the Vessel's personnel, equipment and facilities' technical restrictions, the cost shall be for Seller's account.

30.9. Lightering, floating storage and ship-to-ship

30.9.1. If the Discharge Port requires the Seller's Vessel to be discharged to a lighter, floating storage or other Vessel by a ship-to-ship transfer, this shall be subject to Seller's prior consent. The Seller may, on any reasonable grounds and without liability, refuse the use of such lighter, floating storage facility or other Vessel for the purpose of discharging its nominated Vessel. The cost of such lightering or such discharging shall be for Buyer's account. Any additional costs in excess of those provided for in Clause 31 (including but not limited to additional steaming and/ or waiting time) shall be for Buyer's account.

- 30.9.2.** Either Party may request to discharge the Vessel to lighters or to floating storage or another Vessel by ship-to-ship transfer, with such request subject to acceptance by the non-requesting Party, such acceptance not to be unreasonably withheld.
- 30.9.3.** In the event of discharge, being requested by the Seller in accordance with Clause 30.9.2, the cost of such discharge shall be for Seller's account. Any additional costs in excess of those provided for in Clause 31 (including but not limited to additional steaming and/or waiting time) shall be for Buyer's account.
- 30.9.5.** Should any lightering or ship to ship transfer operations be carried out, the operation shall be conducted in accordance with the most recent edition of the Ship to Ship Transfer Guide as published by OCIMF as may be amended from time to time and MARPOL Annex I as amended by Resolution MEPC.186 (59), Chapter 8: Prevention of Pollution during Transfer of Oil Cargo between Oil Tankers at Sea, Regulations 40, 41, 42 for the transfer of Crude Oil and Petroleum Products or any amendments thereto.
- 30.9.6.** The provider of any lightering, discharging from floating storage or ship-to-ship transfer services must be acceptable to both the Seller and the Buyer.
- 30.9.7.** Any lighter, floating storage unit or Vessel involved in any lightering, discharge from floating storage or ship-to-ship transfer operations must be acceptable to both the Seller and the Buyer.
- 30.9.8.** The Buyer shall be obliged to notify the place of lightering or discharge to a floating storage facility or other Vessel by ship-to-ship transfer to the Vessel when N.O.R. is tendered. The place of lightering or discharge so notified shall be deemed the Berth for the purposes of Clause 31 and all references therein to the Berth shall be construed accordingly.

31. Laytime and Demurrage

31.1. Laydays at discharge port

Where Laydays at Discharge Port are specified in the Special Provisions or as established in accordance with the procedures specified in the Special provisions, these shall be the Day or range

of Days in which the Seller's nominated Vessel should tender N.O.R. at the Discharge Port and Discharge shall commence and complete as soon as reasonably practicable thereafter, even if this means discharge is effected or completed outside the Laydays.

31.2. Berth

For the discharge of the Oil or Product the Buyer shall provide or cause to be provided free of charge to the Seller a Berth to be indicated by the Buyer or its representative which the Vessel can when fully laden, safely reach and leave and where she can always lie safely afloat. The Buyer warrants that the plant and machinery at the indicated Berth is in good working order. The Buyer shall indemnify and hold the Seller fully harmless in respect of any damages or losses incurred by the Seller or in respect of any claim to which the Seller is exposed by reason of any breach of this Clause 31.2.

31.3. Oil washing and stripping

Any time taken during the discharge used for Oil washing and/or stripping of cargo tanks and lines shall count against Laytime, or if already on demurrage, for demurrage. The Seller shall provide the Buyer with a crude oil washing log identifying each tank washed, and stating whether such tank has been washed to the MARPOL minimum standard.

31.4. Time allowed

31.4.1. Except as expressly provided in the Special Provisions, the time allowed to the Buyer for discharge of a full cargo shall be as per the applicable charter party of the performing Vessel or pro rata for a part cargo lot. In the absence of such a provision in the applicable charter party or in the absence of a charter party with laytime and demurrage provisions:

- a)** in the case of a Vessel of 15,000 tons summer deadweight or less, 24 running hours for full cargo or pro rata for part cargo; or
- b)** in all other cases, 36 running hours, for full cargo or pro rata for part cargo.

31.4.2. 31.4.2 All days and holidays shall be included unless discharging on the day or holiday in question is prohibited by law or regulation at the Discharge Port.

31.5. Running hours

- 31.5.1.** Except for 31.5.3, time allowed for discharge shall commence, Berth or no Berth, six (6) hours after N.O.R. is tendered in writing to the Buyer or its representative by the Master of the Vessel or his representative, or when the Vessel is securely moored at the Berth or other discharge place, whichever is earlier and irrespective of whether the Vessel loaded within the agreed loading Laydays or arrived at the Discharge Port within any Indicative Discharge Range.
- 31.5.2.** In case of lightering, discharge at a floating storage or ship-to-ship operations, the Buyer's Vessel or floating storage shall be deemed the Berth for the purposes of Clause 31 and all references therein to Berth shall be construed accordingly. Time shall commence upon the expiration of six (6) hours after the Vessel arrives at the designated lightering area for discharging or when the Vessel is all fast alongside, whichever is earlier, and in either case, when the Vessel is ready to discharge in every respect, and time shall end when hoses are disconnected and all ship-to-ship equipment and personnel has been removed from the Vessel. All other terms in connection with the running hours for the purposes of calculating the liability for demurrage shall be governed as per the applicable charter party, and in the absence of an applicable charter party or in case of a Time Charter Vessel, as per ShellVoy6 and subsequent amendments.
- 31.5.3.** In the cases where discharge Laydays have been agreed in the Special Provisions, the following shall apply:
- (a)** if N.O.R. is tendered within the agreed Laydays at the Discharge Port, time allowed for discharge shall commence, Berth or no Berth, six (6) hours after N.O.R. is tendered in writing to the Buyer or its representative by the Master of the Vessel or his representative, or when the Vessel is securely moored at the Berth or other discharge place, whichever is earlier;
 - (b)** if N.O.R. is tendered by the Vessel before the agreed Laydays at the Discharge Port, time shall commence at 06:00 hours on the first Day of the Laydays or on commencement of discharge, whichever is earlier;
 - (c)** if N.O.R. is tendered by the Vessel after the last of the agreed Laydays at the Discharge Port, time shall begin upon commencement of discharge or twenty four (24) hours after N.O.R. has been tendered, whichever is earlier.
- 31.5.4.** The time allowed for discharging the cargo shall cease upon disconnection of the discharging hoses.

31.5.5. Any time taken for any of the following purposes shall not be counted as time taken by the Buyer to discharge the Oil or Product or time in respect of which the Buyer is liable for demurrage (whether or not the Vessel is on demurrage):

- (a) inward passage until the Vessel is securely moored at the Berth or any other discharging place (even if lightering has taken place at the anchorage or other waiting place);
- (b) awaiting daylight (but only if it is a port regulation), tugs, tide, ice, pilots, free pratique or immigration procedures;
- (c) time taken in handling or preparing to handle ballast, slops, bunkers or other substances, unless this is carried out concurrently with discharging or other normal cargo operations;
- (d) time spent in complying with the regulations and other requirements of discharging operations of the Discharge Port;
- (e) the Vessel's breakdown or failure to comply with the requirements of the terminal with respect to equipment aboard or for any other cause whatsoever attributable to the Vessel or its crew causing restrictions to discharging operations;
- (f) time spent due to labour disputes, strikes, go slows, work to rules, lockouts, stoppages or restraints of labour involving the Master, officers or crew of the Vessel or tugboats or pilots or mooring men; and
- (g) any other delay directly attributable to the Vessel, the Seller or agents of the Seller.

31.5.6. Any other circumstance not covered by the above provisions (a) to (g) will be regulated as per the applicable charter party's terms and conditions, and in the absence such a charter party or in case of a Time Charter Vessel, as per Shellvoy6 terms and conditions as amended from time to time.

31.5.7. Part cargoes discharged at different Berth at the same Discharge Port

If the nominated Vessel is to discharge Oil or Product purchased by the Buyer from the Seller in addition to other cargoes at the same Discharge Port, but at different Berths, then, time allowed for discharging such part cargo shall count:

- (a) if the Buyer's terminal or Berth is the first terminal or Berth at which the Vessel commences discharge, six (6) hours after N.O.R. is tendered in writing to the Buyer or his representative, or when the Vessel is securely moored at the Berth whichever is earlier;
- (b) if the Buyer's terminal is not the first terminal or Berth for which the Vessel commences the discharge, when the Vessel tenders N.O.R. for the Buyer's parcel and is cleared from the previous Berth or in case there is not a N.O.R tendered for the Buyer's parcel, when the

hoses disconnected in the previous operation, except for those provisions set out in Clause 31.5.8 below.

31.5.8. Part cargoes discharged at the same Berth at the same Discharge Port

- 31.5.8.1.** If the nominated Vessel discharges Oil or Product purchased by the Buyer from the Seller in addition to other cargoes at the same Berth, the time allowed for discharging the Buyer's part cargo, shall count six (6) hours after N.O.R. is tendered in writing to the Buyer or his representative, or when the Vessel is securely moored at the Berth, whichever is earlier.
- 31.5.8.2.** The time consumed shall be prorated proportionately to the percentage of cargo due to the Buyer against the cargo quantity discharged in that Discharge Port except for the time used for the discharge of each Buyer's parcel.

31.6. Pumping

- 31.6.1.** The Seller warrants that the Vessel shall be capable of discharging a full cargo within 24 hours or maintaining an average back pressure of 100 P.S.I. (or 7 bar) at the Vessel's manifold, provided the receiving facilities are prepared to receive cargo under such pressure.
- 31.6.2.** Any claim for demurrage which can be attributed to any failure to comply with Clause 31.6.1 shall be reduced only by that proportion of time which is directly attributable to that failure.

31.7. Demurrage

- 31.7.1.** If the Oil or Product is not discharged within the time allowed, the Buyer shall pay demurrage to the Seller, in the same currency as established for payment in the Agreement, for the time in excess at the appropriate rate per day or pro rata (for part a day).
- 31.7.2.** The rate of demurrage shall be as follows:
- (a)** if any, the rate specified in the Special Provisions;
 - (b)** if no rate is specified in the Special Provisions, the applicable charter party rate;
 - (c)** in the absence of both, the market rate for a Vessel of the size and type used for a single voyage charter from the Loading Port to the Discharge Port. The market rate shall be established by reference to the AFRA published at the beginning of the month in which the Vessel discharges, irrespective of the reference period mentioned in the publication. In

case of LPG vessels, the market rate shall be assessed by reference to the Braefoot Bay Assessments.

- 31.7.3.** The Seller shall also be entitled to claim against the Buyer for all costs due to excess Berth occupancy or any other port cost which is directly attributable to the time on demurrage for which the Buyer is obliged to reimburse the Seller.
- 31.7.4.** Any demurrage claim must be notified to the Buyer in writing within 90 (ninety) days of the date of disconnection of discharging hoses, with full supporting documentation (including, but not exclusively, the time computation, N.O.R, Vessel's port log, statement of facts and, where applicable, evidence of charter party rate), together with any other documentation that the Buyer may reasonably require. Any such documentation not then available shall be provided to the Buyer within one hundred and eighty (180) days of the disconnection of discharging hoses. If the Seller fails to give such notice or provide such documentation within the above respective time limits, then the Seller's claim shall be deemed to have been waived and any liability of the Buyer for demurrage shall be extinguished.

PART IV. DES AND DAP DELIVERIES

32. General

32.1. Title and risk

Notwithstanding any right of the Seller to retain documents until payment, title and risk shall be vested in the Buyer:

- (a) in case of pipeline transfers, when the Oil or Product is passing the flange connection at receiver's facilities;
- (b) when delivery by Vessel when the Oil or Product passes the manifold flange connection of the Vessel's delivery hose at discharge port;
- (c) when delivery by other means of transport at the nominated Delivery Place or nominated discharge place.

At that point the Seller's responsibility with respect to the Oil or Product shall cease, and the Buyer shall assume all risk of loss or damage including but not limited to loss, deterioration, evaporation, spills or other risks or damage caused to or by the Oil or Product delivered.

32.2. Independent inspection

32.2.1. The Buyer and the Seller will mutually appoint an Independent Inspector to determine at the Discharge Port the compliance of the Oil or Product with the quality and quantity provisions in the Special Provisions, with costs to be shared equally between the Parties.

32.2.2. Where the Discharge Port is operated by the Buyer or the Buyer's Affiliates or the Buyer's Associated Companies, the Buyer shall ensure that the Independent Inspector (and any representative of the Seller which the Seller may appoint) shall have full access to the facilities at the Discharge Port necessary to enable him to perform his duties. The report of such Independent Inspector shall include quality and net quantity. The certificates of quality and quantity (or other equivalent document) shall, except in cases of manifest error or fraud, be conclusive and binding for invoicing purposes and the Buyer shall be obliged to make full payment in accordance with

Clause 3 but without prejudice to the rights of either Party to make any claim pursuant to Clause 33.3 and Clause 34.2

32.2.3. Where:

- (a) the Discharge Port is not operated by the Buyer or the Buyer's Affiliates or the Buyer's Associated Companies and the Discharge Port refuses access to any Independent Inspector appointed by the Parties; or
- (b) the Parties are unable to reach an agreement on the appointment of an Independent Inspector; the report shall be made by Discharge Port's own qualified inspector ("Discharge Port Inspector").

32.2.4. Each party may, at their own expense, have an authorized representative present at the Discharge Port to observe discharging, testing, sampling and measuring, provided that it is reasonably possible to do so.

32.2.5. If an independent inspector has already been appointed by the Seller or any third party in respect of the Oil or Product prior to the appropriation of the cargo by the Seller to the Buyer or if such inspection has already been carried out, then both Parties shall be bound by the certificates of quantity and quality issued by said inspector for invoicing purposes, provided that the certificates of quantity and quality (or such other equivalent documents) of the Oil or Product comprising the cargo are issued in accordance with Clauses 33.3. and 34.2 below.

33. Quality

33.1. The Oil or Product to be supplied shall be of the quality, description and/or specification as set out in the Special Provisions. Unless otherwise agreed between the Parties in the Special Provisions, the quality of the Oil or Product shall be determined at the Discharge Port in accordance with the latest ASTM standards and MPMS or, if for whatever reason those standards are not applicable, according to good standard practice in use at the Discharge Port at the time of discharge.

33.2. Unless otherwise agreed, the quality of the Oil or Product shall be stated from a composite sample taken from the Vessel's tanks at the Discharge Port, in accordance with good standard practice at the Discharge Port. The sample will be retained in three sets of sealed containers; one set to be retained by the Independent Inspector or Discharge Port Inspector, as the case may be; the second

set to be retained by the Seller; and the third set will be submitted to the Buyer. The samples shall be kept for a period of ninety (90) Days.

33.3. Quality claims

33.3.1. Any claim of variation of quality shall be admissible provided that:

- (a)** a fully documented claim is presented to the Seller within fifteen (15) Days after the date on which the discharge of the Oil or Product has been completed; and
- (b)** the claim includes a copy of the analysis report carried out by a first class inspection company on the Discharge Port sample submitted to the Buyer, showing that the quality of this sample does not comply with the Special Provisions differing by a greater amount than the reproducibility and repeat- ability as per the applicable standards.

33.3.2. In the event that the report of analysis referred to at (b) above is not accepted by the Seller, the sample retained by the Independent Inspector or Discharging Port Inspector at Discharging Port) shall be referred for a new analysis to a new mutually acceptable inspection company. Each party shall have the right to appoint a representative to witness the new analysis.

33.3.3. The results of the new analysis in Clause 33.3.2 shall be conclusive and binding on both parties for all purposes.

33.3.4. If the Buyer fails to comply with the provisions of Clause 33.3.1 and 33.3.2., all claims regarding quality shall be deemed to have been waived by the Buyer and no claim may be brought in respect of quality.

33.3.5. In case of a quality discrepancy, the Buyer will proceed with a formal claim according to this Clause 33.3, but no quality claim exempts the Buyer from its obligation to discharge the Oil or Product.

34. Quantity

34.1. Unless otherwise agreed, the quantity of the Oil or Product shall be determined by Vessel's measurements in accordance with good standard practice in use at the Discharge Port at the time of discharge.

34.2. Quantity claims

34.2.1. Nothing in Clause 34 shall prejudice the right of either Party to challenge the accuracy of the measurement taken and recorded in the certificate of quantity (or other equivalent document), provided always that the Buyer shall first have paid the invoiced amount. Any claim of deficiency of quantity shall be admissible provided that:

(a) a fully documented claim is presented to the Seller within fifteen (15) Days after the date on which the discharge of the Oil or Product has been completed; and

(b) the claim includes, as a minimum, a copy of the full report issued by an inspection company at the Discharge Port and the receiving Vessel's ullage reports at the Discharge Port.

34.2.2. If the Buyer fails to comply with the provisions of Clause 34.2.1, all claims regarding quantity shall be deemed to have been waived by the Buyer and no claim may be brought in respect of them.

34.2.3. No claim shall be made or allowed in respect of any shortage of quantity where the difference between the quantity of the Oil or Product discharged and the quantity measured in accordance with the Special Provisions, is equal to or less than 0.5%. The Buyer may only claim from the Seller any shortage in excess of 0.5%.

34.2.4. Where delivery is made as an unsegregated part cargo lot to the Buyer and a third party, the quantity determined in accordance with the foregoing shall be adjusted so that, following completion of discharge of the relevant part cargo lots, the Buyer and such third party shall each be allocated a percentage of the total discharged quantity equal to that percentage of the total outturn quantity (determined at each Discharge Port) which was discharged at its Discharge Port.

35. Nomination

35.1. Nomination of Vessels

35.1.1. Unless otherwise provided in the Special Provisions, the Seller shall advise the Buyer, during the Seller's Office Hours, of the Vessel nomination for full or part cargo, no later than five (5) Working Days for purchases of Oil and three (3) Working Days for purchases of Product (hereinafter in this Part IV, the "Dead- line"), prior to the Vessel's commencement of loading.

35.1.2. In the event the Agreement is entered into after the Deadline but prior to the first Day of the Laydays then the nomination must be received by the Buyer as soon as possible.

35.1.3. Notice of nomination shall be given in writing by the Seller to the Buyer and shall include:

- (a) the name of the Vessel, up-to-date Q88, IMO number, date built, flag, deadweight, cargo tank capacity, length, beam, draught;
- (b) the grade and approximate quantity of the Oil or Product to be loaded;
- (c) the ETA of the Vessel at the Loading Port;
- (d) the last three cargoes of the Vessel in its three previous voyages;
- (e) details of any other cargo on board if delivery is a part cargo at the Discharge Port;
- (f) the Laydays at the Loading Port or bill of lading date where the Vessel is already loaded at the time such notice has been advised by the Seller and ETA at Discharge Port; and
- (g) the demurrage rate for the voyage.

35.2. Substitution of Vessels

The Seller shall have the right, with due notification in writing to the Buyer, to substitute prior to the first Day of the agreed Laydays, the nominated Vessel with another Vessel of similar class, type, size and capacity and position, complying with the provisions and warranties under Clause 35.4, provided that the substitute Vessel tenders N.O.R. to discharge before or within the agreed Laydays and that the Seller shall provide in the substitution nomination notice the same details as required under Clause 35.1.3.

35.3. Rejection or acceptance of nomination

35.3.1. The Buyer shall have one (1) full Working Day after receipt of the Seller's nomination notice, including substitute nomination notices, to accept or reject the Vessel nominated. The Buyer's acceptance shall not be unreasonably withheld. Buyer shall not be entitled to reject the nomination of a Vessel on any grounds which are not related to the Vessel herself.

35.3.2. Consequences of rejection of nomination

In the event of the rejection of a nomination by the Buyer, the Seller shall nominate a substitute Vessel. The Seller's obligations under the Agreement to nominate a suitable Vessel and to ensure that it tenders N.O.R. at the Discharge Port within the agreed Laydays shall be unaffected.

35.4. Vessel's warranties

- 35.4.1.** The Seller hereby declares that the nominated Vessel shall be in full compliance with all applicable laws, regulations and other requirements of the country of the Vessel's registry and countries, port authorities and terminals at which the Vessel may be discharging.
- 35.4.2.** The Seller warrants that the Vessel's owners, throughout the currency of the charter relating to the Agreement, will maintain the certificate issued pursuant to the Civil Liability Convention 1969 or the 1992 Protocols to that Convention (or any further amendment thereto), whichever be the case.
- 35.4.3.** The Seller warrants that during the currency of the charter the Vessel's owners shall maintain adequate cover up to US\$ 1000 million and in accordance with the terms of the Civil Liability Convention 1969 or 1992 Protocols (or any further amendments thereto) and warrants the full entry of the chartered Vessel in a P&I Club member of the International Group of P&I Clubs. Otherwise the Seller holds the Buyer harmless from any damage or loss arising from that failure.
- 35.4.4.** The Seller warrants that each Vessel loaded hereunder shall be manned and maintained so as to fully comply with the standards set out in ISGOTT/SIGTTO, shall comply with appropriate IMO recommendations and comply with the OCI- MF guidelines for the control of drugs and alcohol on-board ship (1995), and every further revision or amendment.
- 35.4.5.** If requested by the Buyer, the Seller also agrees that the terms of this Clause 35.4 will be incorporated into any bill of lading issued in respect of the Oil or Product sold under the Agreement.
- 35.4.6.** The Vessel shall have on board at all times valid ISM certificates (original SMC and copy of the DOC) and the Vessel's owners, before and during the voyage, comply with the requirements of the ISM Code.

35.5. Vessel's compliance

- 35.5.1.** The Seller warrants that the Vessel complies with any and all international, European or national laws or regulations applicable to oil tankers. In this respect the Seller shall contact the Vessel's local agents at Loading or Discharge Port, as applicable, in order to get updated information on international, European, and national laws and regulations, and to obtain from the relevant authorities any required authorization, which shall be sent to the Buyer. All applicable local and port authority regulations, and any other requirements of whatever nature applicable at the Loading and Discharge Ports, shall apply to the Seller's Vessel.

35.5.2. If the Vessel does not comply with any of the foregoing provisions, the Buyer may reject the Vessel when nominated or subsequently and refuse to berth or discharge the Vessel.

35.5.3. The Buyer shall not be liable for any loss, damage or delay derived from Vessel's non-compliance with any of the foregoing provisions.

35.6. Nomination of Discharge Port

35.6.1. Within two (2) Working Days before the commencement of loading, the Buyer shall nominate to the Seller the Discharge Port which shall be within the range of destinations in the applicable charter party. The Buyer warrants that the Discharge Port will accommodate all the physical characteristics of the nominated Vessel including, but without limitation, the length, beam and draught of the nominated Vessel.

35.6.2. Full written documentary instructions, including any instruction needed by the Seller to issue documents in accordance with the regulations in force at the Discharge Port (including, but not limited to any export regulations) and port destination to be included in the bills of lading will be received by the Seller within two (2) Working Days before the first Day of the commencement of loading. The Seller shall have the right to issue its own instructions if such instructions are not so provided by the Buyer in a timely manner.

35.6.3. All costs (including demurrage) arising out of any failure by the Buyer to comply with the provisions in this Clause 35.6 shall be for Buyer's account.

35.6.4. Alternative Discharge Port

35.6.4.1. The Buyer may request another Discharge Port as per the options, terms and conditions of the applicable charter party.

35.6.4.2. Whenever the Buyer exercises such option, the price stated in the Special Provisions shall be adjusted by the freight differential calculated in accordance with the terms of the applicable charter party or as otherwise agreed between the Parties. The Buyer shall be liable for any additional costs incurred by Seller, including, but not limited to, any deviation costs and costs in respect of any additional bunker consumption. In exercising its Discharge Port options, the Buyer must take account of the dimensions and characteristics of the Vessel nominated by the Seller.

35.6.4.3. No change to the final Discharge Port shall be made without the Seller's written acceptance, which shall not be unreasonably withheld. 36.5.8. Part cargoes discharged at different Berth at the same Discharge Port

If the nominated Vessel is to discharge Oil or Product purchased by the Buyer from the Seller in addition to other cargoes at the same Discharge Port, but at different Berths, then, time allowed for discharging such part cargo shall count:

- 36.5.9.2.** The time consumed shall be prorated proportionately to the percentage of cargo due to the Buyer against the cargo quantity discharged in that Discharge Port except for the time used for the discharge of each Buyer's parcel.

36.6. Pumping

- 36.6.1.** The Seller warrants that the Vessel shall be capable of discharging a full cargo within 24 hours or maintaining an average back pressure of 100 P.S.I. (or 7 bar) at the Vessel's manifold, provided the receiving facilities are prepared to receive cargo under such pressure.

Vessel discharges, irrespective of the reference period mentioned in the publication. In case of LPG vessels, the market rate shall be assessed by reference to the Braefoot Bay Assessments.

- 36.7.3.** The Seller shall also be entitled to claim against the Buyer for all costs due to excess Berth occupancy or any other port cost which is directly attributable to the time on demurrage for which the Buyer is obliged to reimburse the Seller.
- 36.7.4.** Any demurrage claim must be notified to the Buyer in writing within 90 (ninety) Days of the date of disconnection of discharging hoses, with full supporting documentation (including, but not exclusively, the time computation, N.O.R., vessel's port log, statement of facts and, where applicable, evidence of charter party rate), together with any other documentation that the Buyer may reasonably require. Any such documentation not then available shall be provided to the Buyer within 180 (one hundred and eighty) Days of the disconnection of discharging hoses. If the Seller fails to give such notice or provide such documentation within the above respective time limits, then the Seller's claim shall be deemed to have been waived and any liability of the Buyer for demurrage shall be extinguished.

If any of the Seller's tanks are active, the quality shall be determined on volumetrically correct composite samples drawn from the Buyer's tank(s).

39.4. The samples will be retained in three sets of sealed containers; one set to be retained by the Independent Inspector or storage company, as the case may be; the second set to be retained by the Seller; and the third set will be submitted to the Buyer. The samples shall be for a period of ninety (90) Days.

39.5.2. If the Buyer fails to comply with the procedure in Clause 39.5, all claims regarding quality shall be deemed to have been waived by the Buyer and no claim may be brought in respect of them.

39.5.3. Whenever the Buyer is entitled to recover quality costs, losses or damages from the Seller, the Buyer shall only be entitled to recover such costs, losses or damages from the Seller to the extent that the Seller is able to recover, and does recover, such costs, losses or damages from storage terminal or pumping terminal as the case may be, and the Seller shall not be obligated to pay any

40.5. The Buyer may only claim from the Seller any shortage in excess of 0.5%.

40.6. Whenever the Buyer is entitled to recover quantity costs, losses or damages from the Seller, the Buyer shall only be entitled to recover such costs, losses or damages from the Seller to the extent that the Seller is able to recover, and does recover, such costs, losses or damages from storage terminal or pumping terminal as the case may be, and the Seller shall not be obligated to pay any amount to the Buyer in excess thereof.
